The North Bend Nurseries

J. W. STEVENSON, Propr.
NORTH BEND
(Dodge County) Nebraska

1907-Spring and Fall-1907
Catalog and Price List of

FRUIT & ORNAMENTAL TREES

Small Fruits, Shrubs, Roses, Bulbs, Etc.

(Copy)

ENTOMOLOGIST'S CERTIFICATE OF NURSERY INSPECTION.

This is to certify that on September 12, 1906, I examined personally the nursery and premises of the North Bend Nurseries, J. W. Stevenson, Proprietor, North Bend, Neb., and find no San Jose Scale nor indication that it has ever been present in the nursery or its vicinity, and the stock is apparently in a healthy condition and free from all other dangerous insect pests.

This certificate is good for one year.

LAWRENCE BRUNER, State Entomologist.

We Pack Free. We Replace at Half Price. We Guarantee Good Stock in Good Condition. We Pay Freight on Orders of \$10.00 or More.

TESTIMONIALS

North Bend Nurseries, North Bend, Neb.

The stock I purchased of you last spring arrived all right and all grew nicely except two cherry trees. Would say I am well enough pleased with my stock that when an agent comes to sell me trees I tell him "No, I don't want them; I send to North Bend." Please send me your catalogue.

Essex, Neb., Nov. 24, 1905.

MRS. MATTIE ALLEN.

Fairfield, Neb., Dec. 14, 1905.

North Bend Nurseries, North Bend, Neb.

Will you please send me one of your catalogues and price lists for 1906. I am so well pleased with the stock I bought of you last spring that I want some more next spring.

C. E. BRODRICK.

Belgrade, Neb., Dec. 11, 1904.

North Bend Nurseries, North Bend, Neb.

In regard to our nursery stock we bought of you last spring, will say that the plants and trees all lived and have done well. There is nothing to be replaced. Will want another order filled in the spring.

J. B. ROHWER.

Clarkson, Neb., Nov. 25, 1905.

North Bend Nurseries, North Bend, Neb.

The nursery stock I bought of you last spring is all living. There will be nothing to replace. This has been a good season for young trees.

J. S. CRAIG.

North Bend Nurseries, North Bend, Neb.

Madison, Neb., Dec. 11, 1905.

In regard to the trees that I got from you last spring, all are growing except one and that was broken in shipping. I may send for more trees in the spring.

ROBERT E. REEVES.

North Bend Nurseries, North Bend, Neb.

Tilden, Neb., March 18, 1905.

Yours received. In reply would say the strawberries I purchased of you last spring are fine and have made a good growth. The first I received were frozen by late frost, but the replace nearly all lived though many were in bloom when set out, especially Senator Dunlap. I am well pleased so far, but of course fruitage season is what counts.

T. M. OLIN.

North Bend Nurseries, North Bend, Neb.

Randolph, Neb., April 23, 1905.

Your trees came all right and we have made you check for the amount of your invoice less 62 cents freight paid. I hope to use more of your stock next year if these do well.

HERMAN DE BOW.

Rapid City, S. D., May 4, 1906.

J. W. Stevenson, Prop. North Bend Nurseries.

Dear Sir: Enclosed find \$.... in payment for my neighbor's trees. He is well pleased as well as myself. Such trees as these are all right and are starting up fine.

Respectfully

JAMES A. WILSON.

J. W. Stevenson, Prop. North Bend Nurseries.

Harrisburg, Neb., April 30, 1906.

Dear Sir: Your trees were received all right in good shape. Yours truly,

JOHN F. PETERS.

North Bend Nurseries, North Bend, Neb.

Scotia, Neb., April 6, 1906.

Dear Sir: The plants and trees I ordered of you all grew fine but one rose. Am well satisfied with what I got and will send for more.

Yours truly,

MRS. JNO. C. SCHOEMAKER.

North Bend Nurseries, North Bend, Neb.

Duncan, Neb., April 9, 1906.

Dear Sir: The strawberry plants I bought of you all grew well. Have a good prospect for a nice crop. Thank you very much for the extras. May order more fruit trees.

Yours truly,

W. S. BLODGETT.

Sutton, Neb., June 2, 1906.

J. W. Stevenson, Prop. North Bend Nurseries.

The cedar trees arrived yesterday; am well pleased with the looks of them. Hope they will all grow.

WM. GELLATLY.

Genoa, Neb., Nov. 26, 1906.

J. W. Stevenson, Prop. North Bend Nurseries.

Dear Sir: The nursery stock purchased of you last spring has all lived and made a nice growth with the exception of four cherry trees. I am well satisfied with the loss of only four trees out of that number.

Yours truly,

E. J. CHRISTY.

J. W. Stevenson, Prop. North Bend Nurseries.

Hoxie, Kan., Nov. 24, 1906.

Dear Sir: Please send me your catalogue. I ordered a bill of trees of you two or three years ago and was awful well pleased with them.

Yours truly,

BERT SMITH.

J. W. Stevenson, Prop. North Bend Nurseries.

Lexington, Neb., Nov. 12, 1906.

Dear Sir: The strawberries I planted from your nursery made a fine growth. I am intending to plant 10 acres of orchard the coming spring.

Respectfully Yours,

H. V. CAWTHORN.

Try Younkerman & Co. for seed or anything else in their line mentioned in their adv. Send for their catalogue. Our dealings with them have been very pleasant.

To Our Esteemed Patrons *and* Friends:

We take pleasure in presenting you our catalogue for 1907, and thank you for your patronage and kind words. Our circle of friends and customers is enlarging year by year and we will do all we can to merit their patronage and good will by giving stock of good varieties in good condition.

Our twenty-seven years' experience in handling and growing nursery stock in the state convinces us more and more that purchasers will save money and labor by buying from reliable nurserymen near home. We know the varieties that succeed the best and it is to our interest to give you varieties that succeed, for your success will help us to sell to others. Agents of Eastern nurseries are selling many varieties that are a failure in the West. Nor can you select from their catalogue such varieties as you ought to have. Many agents boom high-priced, untried novelties in fruit as especially important, when we know that not more than one out of ten of them generally prove valuable.

Agents—We have dismissed all our traveling agents and in presenting this catalogue we give the customers benefit of agent's commission and expenses. You will find by comparing our prices with those of some agents who may canvass you, that we are from 50 to 500 per cent cheaper. An agent's commission and expenses will cost at least one-half the amount of his orders. Any one wishing to get up a club can have 10 per cent commission and freight paid. Our prices are too low to afford a larger commission.

Location—North Bend is in Dodge County, fifty miles west of Omaha, on the Union Pacific railroad and two miles from Morse Bluff on the C. & N. W. railroad. We ship to points on the latter road from Morse Bluff and thus save the extra cost of shipping over two lines of road. Our soil is a clay loam four feet deep and is unsurpassed in quality in the world for growing good trees, plants or crops of any kind. Our plants and trees root deeply in our porous soil and destructive drouths seldom injure them.

Irrigation—We irrigate our small fruit when needing it and can therefore give superior plants in dry seasons. We have a large demand for strawberry and raspberry plants from nurserymen and dealers, because we can supply them in all seasons with first-class plants. We have extended our irrigation facilities till we can water everything we grow. Though we are not in a drouthy belt, we greatly appreciate the advantages of irrigation in growing fruits and nursery stock, for if we guard against drouths, we can grow very successfully a great variety of fruits in Nebraska.

Terms—Cash with the order. Remit by bank draft, postoffice or express money order, or registered letter. Orders amounting to \$10 or over will be sent C. O. D. if desired, if one-third of the amount is sent with the order and balance before shipment.

Orders should be sent in as early as possible, written on separate sheets from the letter, giving full and explicit directions as to route, whether by freight or express and give nearest railroad or express office as well as your postoffice. If you do not hear from us in a reasonable length of time, write again, as there is a possibility of an order being lost. Claims for errors, if any, should be made within five days after receiving the goods. No order should be sent for less than \$1. Always keep a copy of your order for reference and checking off stock when received. Our prices include packing and delivery at the depot when our responsibility ceases. In case of delay we do our utmost to facilitate delivery.

Packing will be done in the most careful manner, using plenty of moss so the stock will be sure to reach the customer in good order, which we guarantee it to do. Packing season usually commences March 20 and October 1.

We manufacture and sell the Thomas Tree Baler, Box Clamp and Fodder Binders. We have customers in nearly every state and in Canada. Will send descriptive circulars and testimonials to any who may wish them.

Estimates will be cheerfully furnished on large orders.

Replacing—We will replace all fruit trees and plants that die from any cause at half our retail price. If we are to blame for the condition of the stock, we will replace free.

Guarantee—We aim to have our stock true to name and carefully labeled; yet, while we exercise the greatest care to do this, we will not be held responsible for any sum greater than the cost of the stock that proves untrue.

Varieties—As far as possible leave the selection of varieties to us. We will use our experience with fruit in Nebraska for the past twenty-seven years for your benefit. Many select too many varieties and often not the best sorts. When varieties become exhausted we reserve the right to substitute others of same class and value or of larger size except when orders are marked "No Substitution."

Order Early and Get First Attention.

Descriptive Catalogue of 72 pages will be furnished for ten cents. If an order is sent we will credit the amount on the order.

Horticulture Reports of the State Horticultural Society will be sent by mail if ten cents is sent for postage.

Directions for Planting will be sent to each one ordering.

Prices for 6 at a dozen rate, 5 at 10 rate, 50 at 100 rate, 500 at 1,000 rate, though several varieties in a class make up the number.

References—First National Bank, National Bank of North Bend, A. F. Doubrava or Frank Datel, prominent merchants of North Bend.

Freight or Express charges can be paid at destination as our guarantee is accepted by railroad and express companies. Small bales go as cheap by express as by freight and when such is the case we send by express. The minimum weight for freight on all railroad is 100 pounds.

We Will Pay the Freight on an order, or several orders, amounting to \$10 or more, excepting on lots bought at wholesale prices, or on rates per 1,000. This offer applies to points in Nebraska, and only as far as stock is shipped on the Union Pacific or C. & N. W. railroads within the state. We will also pay the freight on orders of \$5 or more shipped to points within 50 miles of here on the Union Pacific or C. & N. W. railroads.

Heeling-in and Planting—When trees are received, heel in immediately so that mellow earth comes in contact with all the roots, and water the roots if the earth is dry. Do not let the bale or box be exposed to sun or wind an hour if you can avoid it, and in planting do not let the roots get dry for a moment. In planting make the hole sufficiently large so roots will not be bent or twisted. It is a good plan to have roots grouted or dipped in mud before planting. Plant one or two inches deeper than the trees stood in the nursery. Pack the soil firmly about the roots and after roots are covered, add a bucket of water; when soaked away fill up the hole nearly even with the surface, but have the soil on top loose. Where water is plentiful, fill up the hole partly with fine, loose, surface soil and settle it about the roots with water instead of tamping it in. Cultivate with hoe or cultivator every ten days or oftener till middle of August. Nothing should be allowed to grow within two or three feet of the tree. Shorten in branches to one-third of last season's growth and leave only four or five limbs on an apple tree.

If you receive two or more catalogues, please pass the extras to neighbors or to friends who may need them.

Clubs—To those who send in other orders besides their own we will allow a commission of 10 per cent, including order of the person getting up the club.

Names Wanted—Send us the names and P. O. address of all persons who might wish to grow fruit and we will send you by mail or add to your order, Strawberry, Raspberry, Blackberry, Dewberry or Rose Bushes and Shrubs, according to the value of your list. Be careful not to put in the names of those who cannot plant anything. Our Price List is our agent. He will treat you well, so introduce him to your acquaintances.

We will be especially liberal with those who give us a complete list of land owners getting mail at any office and check those most likely to plant trees.

Premiums

We make a special offer in the way of a premium of \$1.00 worth of nursery stock to all our patrons who give us an order of \$10 or more worth of nursery stock, or a \$1.00 book. On a \$5 order a 50 cent book or the same amount in nursery stock. Join in with your neighbors and get a premium.

Notice our offer of Free Strawberry and Raspberry plants on page 8.

We will give an additional premium of 5 per cent in nursery stock on orders received before March 15th and such orders will have precedence in packing. If you could get in all your orders before March 15th it would be better for the customer as well as nurseryman.

APPLES

We have a large supply of apple trees and as good as we have ever grown. We sell them low.

	Each	10	100
5 to 6 feet, select 2 and 3 year.....	\$0.20	\$1.75	\$15.00
4 to 5 feet, select 2-year trees15	1.50	12.00
3 to 4 feet, 2-year good trees10	.85	8.00
2 to 3 feet, 1-year good trees10	.65	5.00

We will give such varieties as will succeed best in this latitude and north of here. We have other varieties in smaller supply, but recommend following:

Summer Apples—Early Harvest, large, yellow, good quality, season, July. Yellow Transparent, large, white, excellent quality, season July, early bearer. Red June, medium size, good bearer, ripens after Early Harvest. Red Astrachan,

large, crimson, moderately productive and hardy; follows Early Harvest. Duchess of Oldenburg, large, striped, extremely hardy, good bearer, ripe August 1. Early Pennock. Benoni, Chenango Strawberry and Cooper's Early White are all valuable sorts of excellent quality, ripe August 1 to 15. Sweet June and Sweet Bough, sweet, early apples, good quality, ripe in July.

Autumn Apples—Wealthy, large, red or striped, excellent quality, extremely hardy, season August and September. Haas, similar to Wealthy, hardy, good bearer, season August and September. Maiden Blush, large, yellow, hardy, productive. Utter's Red, large, yellow, pale stripe, hardy, good quality, good

bearer, follows Wealthy. Fameuse or Snow, nearly red, flesh white, medium size, hardy; season October. Ramsdell Sweet and Price's Sweet are valuable fall sweet sorts. Rambo, delicious quality, but tree rather tender, season October and November. Wolf River, very large, hardy, productive, season September and October. Fall Wine, Dyer, Cole's Quince, Longfield, Fall Wine Sap and Day are all grand, good fall sorts, season September to November.

Winter Apples—Jonathan and Grimes' Golden Pippin, early winter sorts of high quality, good early bearers, moderately hardy. Iowa Blush, medium, delicious quality, tree hardy, early, good bearer. Northwestern Greening, large, yellow, good keeper, good bearer, hardy. Ben Davis and Gano are much alike, great bearers, thrifty, hardy trees, most profitable sorts to plant extensively. Wine Sap, well known sort, high quality, good bearer, long keeper. Mammoth Black Twig, an improved Wine Sap, tree similar, fruit larger. Missouri Pippin, good size, red or striped, great and early bearer, hardy. Salome, medium size, very hardy, good quality, late keeper. Talman Sweet and Isham Sweet are excellent winter sweet apples. Jeniton, medium size, long keeper, blooms very late. Sheriff and York Imperial are both valuable sorts. Walbridge, a great grower, large size, poor quality, does best north.

Special Sorts—Bismarck, new, bears when two or three years old, large apple, good quality, early winter sort.

Winter Banana—Superior quality; very early bearer, long keeper, large.

Each of above sorts 5 to 6 feet, 25c; 4 to 5 feet, 20c; 3 to 4 feet, 15c.

CRAB APPLES

Same price as apple trees of same size. Whitney No. 20, the earliest and largest, a good eating apple when ripe. Sylvan Sweet, Martha, Florence, Red Siberian, medium season, good size and quality. Hyslop, Alaska and Gideon No. 4 are the latest, all of good size and excellent quality.

PEARS

Standard	Each	10	100
5 to 7 feet, select	\$0.35	\$3.00	\$28.00
4 to 5 feet, good trees30	2.50	24.00

Bartlett and Clapp's Favorite, best early sorts. Duchess, Flemish Beauty, Sheldon, Seckel, Garber and Keiffer are best fall sorts.

Dwarf. Varieties same as Standard	Each	10
4 to 5 feet	\$0.35	\$3.00
3 to 4 feet30	2.50
2 to 3 feet25	2.00

Plant at first only three or four varieties. Do not stimulate growth too much after the first year. Coal ashes around the trees is said to be valuable to prevent blight. Keiffer and Garber blight the least.

CHERRIES

Budded on Mahaleb or Mazzard roots and will not sprout unless planted too deep. If planted too deep the tree will start roots near the surface and sprouts will start from them. The bud should be covered about two inches below the surface. Sweet or Heart cherries do not succeed well, but will furnish them if wanted at the same price as the others. Would recommend Early Richmond, Montmorency, Dye-house, Wragg, English Morello, Osheim and Baldwin. They may be planted 16x16 feet. Rocky Mountain cherries are worthless so we do not list them.

	Each	10	100
5 to 6 feet, choice* trees, first class	\$0.45	\$4.00	\$35.00
4 to 5 ft. good trees	.40	3.50	30.00
3 to 4 ft. good roots	.25	2.50	20.00
2 to 3 ft. trees	.20	1.50	12.50

They ripen in the following order: Dyehouse, Early Richmond, Montmorency, Osheim, Baldwin, English Morello and Wragg. Whole season June 15 to August 10. Sweet cherries same price for same size. Windsor is probably the hardest sweet cherry.

PLUMS

In northern part of the state plant mostly of American varieties. They ripen in about the following order and are the leading sorts, though there are multitudes of other sorts. Milton and Wild Goose in July; Pottawattomie, Forest Garden, Wolf, Weaver, Hawkeye and Wyant in August; Stoddard, DeSoto and Miner in September.

Japanese Plums—Abundance (early), Burbank, Red June, Wickson, Satsuma. These sorts are much larger but quality not so good as European sorts.

European Plums—Lombard (most reliable), Tatge, Moore's Arctic, Green Gage, Shipper's Pride, German Prune, Bradshaw, Yellow Egg.

Plant ten or twelve feet apart in thicket form to insure fertilization. Plant several varieties together. Head back in the spring, thus keeping them close headed and stocky and preventing them from breaking down when loaded with fruit. By proper assortment you may have plums from July 15 to October 15.

	Each	10	100
5 to 6 feet, select	\$0.40	\$3.75	\$35.00
4 to 5 feet, good35	3.25	30.00
3 to 4 feet, select 1 and 2 year.....	.30	2.50	20.00
2 to 3 feet20	1.60	12.50

PEACHES

Peaches are being extensively planted in Nebraska and have yielded good crops. The hardiest sorts of budded peaches are much harder than seedlings. It is a very common mistake to suppose that seedling of peach or apple are harder than selected budded or grafted sorts. The quality of the fruit of such seedlings is usually very poor. We recommend as best and hardiest the following sorts which ripen nearly in the order given here: Sneed, Alexander, Amsden, Hale's Early, Triumph, season July; Champion, Crawford's Early, Bokara No. 3 (claimed to be the hardiest peach known), season August; September sorts are Hill's Chilli, Elberta, Crosby, Wright, Bailey, Beer's Smock. Clingstone sorts are Old Mixon Cling, Blood Cling, season September. The earliest sorts are clings. The Wright and Bailey are very hardy but not as good quality as the others and not ripe till last of September. Hardest sorts same price as others.

	Each	10	100
5 to 6 feet, budded sorts	\$0.20	\$1.75	\$15.00
4 to 5 feet, budded sorts15	1.25	12.00
3 to 4 feet, budded sorts12	1.00	10.00

APRICOTS

Apricots are usually harder than peach trees, particularly the budded Russian sorts. Russian sorts: Alexander, Alexis, Gibb, J. L. Budd, season July 1 to August 1. Other sorts are Harris, Early Golden and Superb.

	Each	10	100
5 to 6 feet, 2 year	\$0.25	\$2.20	\$20.00
4 to 5 feet, 2 year20	1.80	18.00
3 to 4 feet, 1 and 2 year15	1.40	12.00

NECTARINES

Same prices as Apricots.

QUINCES

Quinces have not succeeded here or elsewhere in Nebraska so far as we know, but should be experimented with in different localities and with a variety of treatment.

	Each	10
3 to 4 feet	\$0.30	\$2.50
4 to 5 feet35	3.00

CURRANTS

Currants and Gooseberries in their wild state grow in moist places and we can best supply this natural demand by planting in rich soil and by mulching and manuring well. Ashes may also be used freely about them. Shelter them as much as possible from the south wind. Plant 4 to 5 feet apart. Standard sorts: Red and White Dutch, Cherry, White Grape, Victoria, Versailles, Black Naples, etc.

	Each	10	100
No. 1, strong 2-year plants	\$0.10	\$0.80	\$ 6.00
No. 1, 1-year plants08	.60	4.00
London Market, Fays' Prolific, North Star and Pomona, 2-year plants12½	1.00	8.00
No. 1, 1-year plants10	.80	6.00

GOOSEBERRIES

Plant in rich soil, manure once a year, prune thoroughly every year.

	Each	10	100
Houghton, red, reliable old sort, berry small, surest bearer, 2-year	\$0.10	\$0.90	\$ 8.00
Downing, green, large berry, one of the best, 2-year..	.15	1.20	10.00
Pearl, new, very large, green, very profitable, 2-year..	.15	1.20	10.00
Red Jacket, red, very large, healthy grower, productive, 2-year20	1.50	12.50
Industry, English red sort, very large, not reliable....	.20	1.50	12.50
Currants and Gooseberries sent by mail, 15c extra per 10, for 1-year plants.			

RASPBERRIES

Easily grown. Plant 2 feet by 6. Pinch back black caps first year when 1 to 1½ feet high. Plant 200 or more for family use. We grow large quantities.

Black Cap Varieties are as follows:

	10	100	1000
Tyler and Palmer, earliest, hardy, productive.....	\$0.25	\$1.50	\$10.00
Ohio and Older, medium season, hardy, large, productive	.30	1.50	12.00
Conrath and Kansas, medium season, very hardy, large, productive30	1.50	12.00
Nemaha and Gregg, latest in season, very productive..	.30	2.00	12.00
Mills, a new sort, recommended as strong grower, a little later than Kansas; large size30	2.00	12.00
Cumberland, new sort, largest raspberry grown, canes strong and hardy, medium30	2.00	15.00
Eureka, very large, strong grower, hardy and very productive, medium season30	2.00	15.00

Red Cap sorts that root from tip:

Redfield, strong grower, hardy, berries large, excellent	.30	2.00
Wallace, strong grower, hardy, berries large, productive	.30	2.00
Cardinal Red, strong grower, very large berry, hardy..	.40	3.00

Red Cap sorts that sucker:

Turner and Cuthbert, well known, productive25	1.50	10.00
Miller, hardy here, good bearer25	1.50	10.00
Louden, best red sort, very large, hardy, very productive	.30	2.00	12.00

Ten cents per 10 extra if sent by mail.

BLACKBERRIES AND DEWBERRIES

Plant 3 by 7 feet. Pinch or cut new growth of Blackberries back when 3 feet high. Treat suckers of Blackberries and Red Raspberries between the rows as weeds and cut them off once or twice in the spring. We can furnish other sorts, but do not recommend them.

	10	10	1000
Snyder, hardiest of all Blackberries, excellent quality....	\$0.30	\$2.00	\$15.00
Stone's Hardy, very hardy, good bearer, good quality....	.30	2.00	15.00

Lucretia Dewberry—Largest and best of all Dewberries.

The Lucretia Dewberry is becoming more popular every year. It stands drouth remarkably well. Cover plants during winter and be sure of a crop. We give strong roots

.30	2.00	15.00
-----	------	-------

Loganberry—A cross between a Red Raspberry and a Blackberry vine, a strong grower, spreading like the Dewberry. Fruit size of Blackberry. Color red. pleasant flavor, 10 for \$1.50. 10c per 10 extra if sent by mail. We do not recommend it.

IMPROVED DWARF JUNEBSERRIES

The Juneberry is perfectly hardy, always bears, never needs to be replanted, fruit size of wild gooseberry, blue-black when fully ripe, a mild, rich, sub-acid. and is considered delicious by most people. It will do well in all parts of the state and all should have it. It is a good ornamental bush.

	10	10	1000
18 to 30 inches, bearing size	\$0.10	\$0.80	\$ 6.00
10 to 18 inches10	.60	4.00

Can send small size by mail at 10 cents extra per 10.

	Each	10	100
Buffalo Berry —A shrub growing 5 to 6 feet high, bears acid fruit much like currants; fruit good for cooking or for jelly. 12 to 20 in.	\$0.15	\$1.25
Elderberry —Well known, 2 to 3 feet.10	.80	6.00
Rhubarb or Pie Plant —			
Linneus, medium size, tender10	.80	6.00
Giant, very large, best for canning10	.80	6.00
Asparagus —Plant in rich soil, 2 feet apart in rows. Set roots 6 inches below the surface, covering with 3 inches of soil, fill in the first season while cultivating.	Doz.	100	1000
Best sorts, 2-year, mail at dozen rate.	\$0.25	\$1.00	\$ 7.50
Horse Radish —Mail at dozen rate50	3.00

GRAPES

Grapes in November should be taken from the trellis, pruned and covered with mulching or earth. Many varieties can be successfully grown in Nebraska if protected in the winter. We give a list of the most valuable varieties for this country:

	Each	10	100
Concord —Well known, 2-year	\$0.10	\$0.60	\$ 5.00
Concord —One year, No. 1, best size for planting.10	.50	4.00
1 year, No. 205	.30	2.50
Worden and Moore's Early —Seedlings of Concord; larger, better quality, one week to 10 days earlier, hardy as Concord; 2-year, No. 110	.80	6.00
1-year, No. 110	.60	5.00
Empire State, Elvira, Martha, Golden Pocklington, Niagara best white, hardy, popular, very productive, 2-year..	.10	.80	6.00
1-year10	.60	5.00
Catawba, Agawam, Salem, Brighton, Wyoming Red —Best red sorts, fine quality, very productive; 2-year.10	.80	6.00
1-year10	.60	5.00
Campbell's Early —A new seedling of Concord, black, very large, both bunch and berry, fine quality, very early, strong grower, hardy, superior to Concord; 2-yr, No. 1	.20	1.75	15.00
1-year, No. 115	1.50	12.00
The New McPike Grape , black, great size, 1 inch in diameter, bunches often weigh a pound, wood hardy, ripens a week earlier than Concord, excellent quality; 2-year			
No. 135	3.00
1-year, No. 125	2.50
By mail any of the sorts 15 cents extra per dozen for 1-year vines.			

STRAWBERRIES

We have been growing strawberries since 1882. We usually have 12 acres of plants, most of which is new planting from which we dig the plants we sell. We have at present about sixty varieties. We try many new sorts and sometimes find many of them of very superior merit, such as Sample, Clyde, Brandywine, Dunlap and Uncle Jim, which are valuable additions to our list of strawberry plants. The blossoms are either perfect or imperfect. The imperfect are called pistillate because destitute of stamens containing pollen; and have only pistils to receive the pollen from a staminate sort. The pistillate sorts will be marked (P) in our list and such sorts need a staminate variety marked (S) near them or in a parallel row. Remember the staminate or fertile sorts will bear alone but the pistillate sorts will not. We usually plant one row of staminate to two of pistillate.

Our plants are dug as they are ordered.

Packing and Shipping—We use great care in packing so that plants will reach destination in first-class condition and that plants shall be true to name and carefully labeled. If shipments are made late in the season and weather warm they should be expressed. Early in the season they may be shipped by freight. When plants are bought near home the express charges will be at least one dollar per thousand less than charges on shipments from the East, and the risk of plants heating in transit is not half so great. By buying from us you get plants that do best in the West. Many of the Michigan and other Eastern sorts are worthless here, though recommended there. The grower who depends on Eastern recommendations will be disappointed in many varieties.

We can send plants by mail postpaid that are bought at the dozen rate, but if a hundred is to be sent add 20 cents for postage.

When the plants are received, dip the roots only in water and lay them loosely in a cool cellar or heel them in in a shady place, spreading each bunch to occupy two feet of the drill, packing dirt firmly about the roots, but leaving tops uncovered. Water them each day until ready to plant. If so treated they will be in better condition to replant than if planted on arrival, if weather is dry.

We have the largest stock of plants in the state.

Free Plants—For every dollar and up to \$5 received with order for Strawberry or raspberry plants at regular rates, except rates per 1,000, before the 15th of March you may select plants from our list of new sorts, ten cents worth for each dollar so received. Special prices given on large orders of 5,000 or more.

Our plants are dug fresh as ordered and not handled by two or more firms before you get them. We dig the whole row, thus getting the strong plants near the center of the row.

Plant in rows as wide apart as corn rows and have the plants about 15 inches apart in the row, requiring about 10,000 plants for an acre of 62 plants per square rod. In planting have the crowns even with the pressed surface of the ground and press the soil firmly about the roots which should not be bunched together in planting. Cultivate them every week. Tolerate no weeds. Pinch off all fruit stems first year. Do not allow rows to spread more than 18 to 24 inches wide and cut all runners that reach beyond that limit. It is a great mistake to let them grow too thickly like grass.

Spray your plants at least twice a year with Bordeaux to prevent rust.

To save your berries from late frosts, turn the mulching over on the plants and blossoms till danger is past. After first crop of fruit is picked, trim your rows down with plow or spade to ten inches and let runners start new plants on the edge of the plowed space. Cover with mulching from November 15 to December 1, and rake off into space between rows when plants begin to grow in the spring. If for any cause you do not get a good stand of plants, write us as early as you know it and we will help you out with more plants free of charge if we are to blame for poor condition of them, or will not charge more than half price. Can ship plants till the 20th of May. Lime dust made by slacking fresh lime with strong lye water and sifted on strawberry or vegetable plants when dew is on is an excellent remedy for insects and beneficial to the plant. A little flour added to the lime will make it stick a long time. Can add Paris green if needed.

Never had better plants than we have this year.

PRICES OF LEADING STANDARD SORTS

In giving the order for 1,000 or more not less than 100 of a sort should be selected.

	Doz.	100	1,000
Aroma (S) —One of the best late sorts, splendid berry, strong, healthy grower	\$0.25	\$0.50	\$3.00
August Luther (S) —Extra early, fair size, good quality, strong grower25	.50	3.00
Bederwood (S) —Best early, rapid grower, very productive, good quality, one of the best sorts to pollinize early pistillate sorts such as Warfield and Crescent25	.50	2.50
Bismark (S) —Large, much like Bubach, but more productive, healthy plant, vigorous grower25	.50	3.00
Brandywine (S) —Berry large and handsome, good quality, productive, fine plant and grower, very thrifty, good pollinizer, few sorts so highly recommended; plant largely of this25	.50	3.00
Bisel (P) —Medium to large, early, vigorous plant, stands drouth, productive, generally recommended, good shipper ..	.25	.50	3.00
Climax (S) —A very popular new variety, has yielded at the rate of 25,000 quarts per acre, good grower; healthy here ..	.30	.50	4.00

	Doz.	100	1,000
Crescent (P) —A leading sort, "lazy man's berry," vigorous grower everywhere; early, fruit very sour25	.50	2.50
Clyde (S) —Fruited here, everywhere praised, large berries, very productive, a strong growing plant. Neither cold, heat, or drouth seems to injure this sort. Bears early and late; a fine pollenizer for other sorts30	.50	3.00
Carmi Beauty (P) —Early, large berries, highest flavor, stands drouth, abundant healthy foliage, very productive. We are much pleased with this sort, both in plant and fruit25	.50	3.00
Commonwealth (S) —New sort; good grower; very large, productive; very late40	1.00
Corsican (S) —Excellent grower, productive of large berries30	.50	4.00
Enormous (P) —Fine plant and big berries; very good sort25	.50	3.00
Gandy (S) —Very late, large, thrifty grower; productive, good quality; latest sort25	.50	3.00
Haverland (P) —Thrifty, healthy, immensely productive of medium to large berries; has always done well here. Good for near market sort25	.50	3.00
Jessie (S) —A mate for Bubach, very large berry fine quality, very vigorous, healthy grower, no rust, handsome berry and a good shipper25	.50	3.00
Johnson's Early (S) —Very early bearer of firm, large berries, vigorous healthy grower, no rust, handsome berry and a good shipper25	.50	2.50
Kansas (P) —New, season late, medium to large, firm, good shipper, very productive, a good grower, no rust. This is a very reliable sort25	.50	2.50
Mrs. Miller (P) —New, large, strong plant, vigorous grower, berries of immense size, fine quality, mid-season till late40	1.00
Mark Hanna (S) —Introduced in 1902 by an admirer of Mark Hanna; the plants are all you could desire; good bearer of large berries40	.60	4.00
Mrs. Mark Hanna (P) —This is not quite as strong a grower as the Mr. Hanna, but is a nice plant and the fruit very highly recommended. Both of the Hanna sorts bore abundantly last season, nice large berries. We think they are varieties that have come to stay..	.40	.60	4.00
Oom Paul (S) —A very promising sort, thrifty plant and large berries25	.50	3.00
Parson's Beauty (S) —New, said to be one of the most satisfactory varieties under ordinary field culture, immensely productive of large berries. We find it a handsome, vigorous plant, free from rust. Bore a good crop past season25	.50	3.00
Parker Earl Improved (S) —Very productive, large fruit good quality, late. Plant makes few runners, needs good soil and plenty of moisture to mature fruit, rusts30	.65	4.00
President (P) —The Rural New Yorker states: "The President led all kinds in development of fruit, every plant producing large clusters." We find it here an ideal plant, strong and healthy; good bearer of large berries30	.50	3.50
Splendid (S) —Much like Brandywine in plant and fruit; very productive of large berries. Plant this freely....	.25	.50	3.00
Sample (P) —This sort has fruited here four years, is a fine plant, introducer claims it superior to any sort yet in yield of berries and equal to any in quality; we are pleased with plant and fruit and will plant largely of this sort. At Amherst College, Mass., the Sample proved to be the best fruited and largest berry of 200 varieties. This sort does well under all conditions if properly fertilized, season medium to late, rusts some25	.50	3.00
Senator Dunlap (S) —An Illinois production. At the experiment station in Illinois it was pronounced the best for three years among eighty-two other varieties. We have great confidence in this sort. It has a fine berry, is prolific, stands drouth, heat and cold and transplants easily. There is danger of it matting together too thickly in the row. The leading sort now.....	.25	.50	2.50

	Doz.	100	1,000
Tennessee Prolific (S) —Very early, large, beautiful, productive berry, foliage vigorous and healthy, roots deep, stands drouth well, succeeds everywhere25	.50	3.00
Wolverton (S) —Late sort, escapes frost, fine berry, good, yielder, moderate grower, good shipper25	.50	3.00
Uncle Jim (S) —New, late sort, No. 1 shipper, large size, fine color. The originator says it will bear twice as much to the acre as many other sorts. It did remarkably well the past season25	.50	3.50
Warfield No. 2 (P) —Early and late, very productive, good shipper, good quality, our leading sort, more extensively planted than any other sort. We have not found any sort that will surpass the Warfield in productiveness or quality of fruit. It will not stand drouth as well as some other sorts25	.50	2.50
Thompson's Early (S) —Very early, highly recommended, fine healthy grower. Moderate bearer25	.50	2.50
We have a good many other sorts in small supply, some of them new sorts that need further testing and some sorts we will discard altogether.			
Strawberry plants in August and September can be furnished at double the 100 or 1000 rate in this catalogue and at one-half more for dozen rate.

EVERGREENS

Evergreens should be started in the spring when sap is starting new growth. We handle chiefly transplanted stock which will transplant more safely. Never send East for Evergreens. Cultivate or mulch well first year and water thoroughly, but not too often until November. Norway Spruce and Platte Cedars

transplant best and Scotch and Austrian pines and Red Cedars stand drouth best. The Black Hills and Colorado Evergreens are succeeding well. If sold out of some sizes we can give a larger size at same price, or same value in a small size.
